

Lindsey Paul Jones

Nationality: British/French

Personal website: <http://www.lindseyjonesresearch.com/>

Contact: l.jones3@lse.ac.uk; ljonestz@gmail.com

OVERVIEW

Lindsey Jones is a researcher working on issues related to climate resilience, disaster risk reduction and development. He has designed and led a number of large international research programmes in Africa and Asia, having held positions at the Overseas Development Institute, United Nations Development Programme, World Food Programme, and the CGIAR Research Program on Climate Change, Agriculture And Food Security (CCAFS). Lindsey's research is proudly cross-disciplinarily, combining quantitative assessments of large datasets with qualitative insights from local voices.

QUALIFICATIONS

- Ongoing** PhD (Candidate), Environmental Economics & Policy cluster,
London School of Economics (Exp. complete: Dec 2019)
- 2009** MSc (Distinction). Nature, Society and Environmental Policy,
University of Oxford
- 2008** BSc (Hons). Environmental Geography and International Development,
University of East Anglia

International Baccalaureate (IB), International School Phnom Penh, Cambodia (2005);
IGCSE, International School Moshi, Tanzania (2003).

CITATIONS

1400 (August 2019: Google Scholar)

POSTS HELD

- Research Associate, Previously Research Fellow (2014-2016); Senior Research Officer (2011-2014); and Junior Research Officer (2010-2011)**
Overseas Development Institute (ODI), Climate and Environment Programme
- Jan 2010-present** Main role is to support, develop and facilitate research relating to climate change adaptation and resilience. Recent activities include: the development of new methods for measuring adaptation and resilience across scales; supporting the uptake of climate information into long-term decision making within NGOs and other development organisations; and providing technical assistance to developing country governments in planning for and evaluating adaptation solutions.
- Doctoral Researcher, Supervisor (Prof. Declan Conway)**
London School of Economics and Political Science, Grantham Research Institute on Climate Change and the Environment
- Sept 2016 - Present** My research examines subjective approaches to measuring resilience to climate change and extremes. The research collects large amounts of data through remote mobile phone surveys and uses mixed method approaches to evaluate the merits and limitations of perception-based approaches to quantifying resilience. *Expected completion: Sept 2019.*

A selection of current and past research projects:

BRACED Rapid Response Research

Designed, managed and coordinated a £350K research programme on tracking resilience in post-disaster contexts in Myanmar using mobile phone surveys. Responsible for all aspects of research design and project management. [More information here.](#)

Maternity cover for Nicola Ranger, Department for International Development (DFID) Climate Change Advisor, June 2015 – March 2016

Supported DFID's Research and Evidence Division and Africa Regional Department. Helped to design, coordinate and evaluate a £35M portfolio of resilience and climate science activities.

Future Climate For Africa (FCFA) scoping phase, Principle Investigator and Project Manager, 2013-2014. DFID/NERC funded (£0.5M)

Was in charge of a £0.5M portfolio of research activities spanning natural and social sciences. The FCFA programme looks to generate a more robust and 'decision-relevant' body of scientific evidence on medium-term (10 - 40 years) climate change to enable effective long-term planning and climate-resilient development across Africa. [More information here.](#)

African Climate Change Resilience Alliance (ACCRA), Principle Investigator and Steering Group Member 2010-2015 Oxfam funded (£0.6M)

Led ACCRA's research activities in evaluating the impact of development interventions on local adaptive capacity in Uganda, Ethiopia and Mozambique. ACCRA seeks to increase the use of evidence by governments and other development actors in implementing policies that improve poor people's resilience to climate related hazards. [More information here.](#)

- Mar-Jun 2018 Visiting Scientist
Commonwealth Scientific and Industrial Organisation (CSIRO),
Townsville, Australia

- June-Oct 2014 Visiting Fellow
International Livestock Research Institute (ILRI), the CGIAR Research
Program on Climate Change, Agriculture And Food Security (CAAFS),
Kenya

- Sept-Dec 2009 National Adaptation Programme of Action (NAPA) Team Member
United Nations Development Programme/Government of Nepal, Ministry
of Environment, Nepal

- July-
Sept 2009 Climate Research Intern
United Nations World Food Programme (WFP), Nepal

- July-Dec 2008 Project Assistant
Human and Habitat Programme, Tolerance International- UK (TI-UK)

MEMBERSHIPS

Member of the Evidence for Decisions Scientific Committee, [Resilience Evidence for Decision Making Initiative \(REDDI\)](#)

HONOURS & AWARDS

Tropical Agriculture Association Award for postgraduate research; Kellogg College Alumni Award, Oxford University; Katie Wilkinson Research Scholarship, (UEA); Economic and Social Research Council (ESRC) (full PhD funding)

TECHNICAL SKILLS

R (Advanced); SPSS (Proficient); STATA (Novice); Microsoft Office (Advanced)

LANGUAGES

English (Mother Tongue); French (Fluent); Swahili (Basic)
