

Lindsey Paul Jones

Nationality: British/French

Personal website: <http://www.lindseyjonesresearch.com/>

Contact: ljones12@worldbank.org; ljonestz@gmail.com

OVERVIEW

Lindsey Jones is a researcher and development practitioner with over 10 years of experience on issues related to climate change adaptation, resilience and disaster risk reduction. He has designed and managed a number of large technical assistance programmes across Africa and Asia, having held positions at leading think tanks, research institutes and multilateral development organisations.

QUALIFICATIONS

- | | |
|------|--|
| 2020 | PhD, Environmental Policy and Development, <i>Thesis: Essays in Resilience Measurement. Supervisor: Prof. Declan Conway.</i> London School of Economics and Political Science |
| 2009 | MSc (Distinction). Nature, Society and Environmental Policy, University of Oxford |
| 2008 | BSc (Hons). Environmental Geography and International Development, University of East Anglia |

International Baccalaureate (IB), International School Phnom Penh, Cambodia (2005); IGCSE, International School Moshi, Tanzania (2003).

POSTS

April 2020 - present **Senior Consultant (ETC), World Bank Global Crisis Risk Platform**

Leading analytical and methodological inputs to the Global Crisis Risk Platform (GCRP)'s efforts to design an early warning system for compound risk. The role focuses on tracking complex crises – informing decision makers of current and future risk hotspots. In addition, I support the design and roll out of the GCRP's Crisis Preparedness Metrics (CPM) exercise – an initiative aimed at identifying gaps and entry points to support national crisis preparedness across all IDA countries.

As part of these role, I have supported the following priority areas:

- Led design of methodological elements of the Compound Risk Monitor – aggregating a wide array of live risk data sources into a decision-support tool for stakeholders across the Bank
- Inputted to the design of GCRP's Crisis Preparedness Metrics framework and roll in pilot countries
- Acted as focal point for a technical working group on compound risk monitoring with UN-OCHA and UN-PBSO
- Led report on the effectiveness of the Kenya Livestock Insurance Programme (KLIP), an index-based insurance scheme targeting pastoralists

|------------------------|---|
| June 2020 - present | <p>Research Associate, London School of Economics, School of Geography and Environment</p> <p>Collaboration on a variety of research programme on topics related to climate change adaptation, resilience and social development. Research activities are linked to the Grantham Research Institute on Climate Change and the Environment.</p> |
| Jan 2010- Oct 2019 | <p>Research Associate, <i>previously Research Fellow (2014-2016); Senior Research Officer (2011-2014); and Junior Research Officer (2010-2011)</i> Overseas Development Institute (ODI), Risk and Resilience Programme</p> <p>Developed technical and analytical support on issues related to climate change adaptation and resilience. Activities included: analysis of climate finance flows and improved metrics for tracking disbursement; supporting the uptake of climate information into long-term decision making within development organisations and national governments; and providing technical assistance to developing country governments in planning for and evaluating risk management solutions. A selection of past projects included:</p> <p><i>BRACED Rapid Response Research, 2016-2018</i> Designed, managed and coordinated a £350K research programme on tracking resilience in post-disaster contexts in Myanmar using mobile phone surveys. Responsible for all aspects of research design and project management. More information here.</p> <p><i>Maternity cover for Department for International Development (DFID) Climate Change Advisor (Nicola Ranger), June 2015 – March 2016</i> Supported DFID’s Research and Evidence Division and Africa Regional Department. Helped to design, coordinate and evaluate a £35M portfolio of resilience and climate science activities.</p> <p><i>Future Climate For Africa (FCFA) scoping phase, Principle Investigator and Project Manager, 2013-2014. DFID/NERC funded (£0.25M)</i> In charge of a £0.25M portfolio of research activities spanning natural and social sciences. The FCFA programme looks to generate a more robust and ‘decision-relevant’ body of scientific evidence on medium-term (10 - 40 years) climate change to enable effective long-term planning and climate-resilient development across Africa. More information here.</p> |
| Mar-Jun 2018 | <p>Visiting Scientist, Commonwealth Scientific and Industrial Organisation (CSIRO), Townsville, Australia</p> |
| June-Oct 2014 | <p>Visiting Fellow, International Livestock Research Institute (ILRI), CGIAR Research Program on Climate Change, Agriculture & Food Security (CCAFS), Kenya</p> |
| Sep-Dec 2009 | <p>National Adaptation Programme of Action (NAPA) Team Member, United Nations Development Programme/Government of Nepal, Ministry of Environment, Nepal</p> |

July-Sep
2009

Climate Research Intern,
United Nations World Food Programme (WFP), Nepal

MEMBERSHIPS

Member of the Evidence for Decisions Scientific Steering Committee, [Resilience Evidence for Decision in Development Initiative \(REDDI\)](#)

HONOURS & AWARDS

Tropical Agriculture Association Award for postgraduate research; Kellogg College Alumni Award, Oxford University; Katie Wilkinson Research Scholarship, (UEA); Economic and Social Research Council (ESRC) (full PhD funding)

TECHNICAL SKILLS

R (Advanced); SPSS (Proficient); STATA (Basic); Microsoft Office (Advanced)

LANGUAGES

English (Mother Tongue); French (Fluent); Swahili (Basic)

PEER REVIEWED ARTICLES & BOOK CHAPTERS

Authored over 25 peer reviewed articles and over 40 working papers on aspects related to disaster risk reduction, resilience and climate change adaptation.
